📁 EMPLOYMENT HISTORY

Software Engineer at be.wan, Waterloo

November 2017 — Present

Lead developer of an audit portal (PHP) and audit tool (C#, Laravel/VueJS) used by more than 2000 companies in 35 countries by the railway industry.

- Eliminated known bugs, removing the need of a dedicated meeting
- Increased security by implementing OWASP Top ten recommendations.
- Configured a fully automated code build and deployment process based on Teamcity, achieving an 80% faster deployment time.
- Introduced static code analytics (phpmd, phpcs, phpstan, eslint), helped us to maintain a consistent code base.
- Upgraded legacy code base from PHP 5.6 to PHP 7.3
- Maintained Data-warehouse on MS SQL Server

Technical stack: PHP Laravel, VueJs, C#, DevExpress 2016, MySql, MSSQL, Linux server, AWS EC2, PHPStorm, TeamCity (CI/CD), Visual Studio 2012, static analytics (PHPMD, PHPCS, PHPSTAN), PHP Unit, Docker

Software Engineer at CFI SA, Neuchâtel

November 2015 — November 2017

- Developed two websites based on Wordpress and WPMVC, a plugin adding MCV feature to WordPress
- Updated a Master Schedule Plan, adding production load smoothing capability

Technical stack: PHP, jQuery, C#, VBA, Wordpress, NetBeans IDE

IT Technical Analyst at GUCCI Swiss Timepieces SA, Cortailod

February 2010 — November 2015

- Built a deployment server based on Microsoft deployment toolkit (MDT) allowing to install computers 60% faster
- Helped 120+ people with their electronics devices on a daily basis (laptop, desktop, printer, blackberry, iPhone, VPN)

Technical stack: Windows XP / 7, Windows deployment toolkit, BMC Track-It, Active Directory, Blackberry, iPhone, Dell laptop and desktop, RSA VPN

IT Technical assistant at Rollomatic SA, CEG, Video200 SA, Johnson&Johnson, Nexans, Neuchâtel

June 2005 — March 2009

- Update user's laptop and desktop from Windows 2000 to Windows XP
- Provide technical support for the IT Service Desk
- Examine all business demands and suggest the right applications and technology
- Take inventory of IT equipment
- Troubleshoot customers Internet connection issue on phone
- Remotely fix basic configuration issues (mails, wifi,...)
